Charlie's Magical Chalk

It was a hot, summer's day and Charlie was bored. Charlie's grandad came into the garden and gave him a box of chalk.

"This is a special box of chalk that I had when I was a small boy. You can play with them if you like but only if you draw something nice," he explained kindly.

Charlie wasn't very excited. He was an eight-year-old boy, who was far too cool and grown up to play with chalk. He stuffed the chalk into his backpack politely.

"Thanks Grandad," said Charlie half-heartedly as he set off out of the door for summer school.
